

What do you think of the book Wonder?

I loved the book Wonder!!

The book Wonder really changed me, it moved me. It teaches you so many good life lessons. One of which is that it doesn't matter what you look like or do it matters what kind of person you are on the inside. You could be snotty, horrible and not be kind like Julian or you could be nice, helpful, and kind like Jack Will. Jack Will tried something even though he was not so sure about and it turned out well. It was a really good decision like. After reading this book it makes me look at life a whole different way. It teaches me that what I say can really hurt someone, even if someone looks different you shouldn't stare or make a face because they have feelings to and the might be really nice and a really good friend. If I ever meet a person like Auggie I will chose kind and sit with he or she and talk to them. I will not be a **JERK** like Julian!!!

This book showed me that even if you don't mean to or don't know you doing it you could hurt someone really badly! Wonder was a emotional book I felt like I was Auggie I imagined all of this happening to me I thought to my self I would sit with Auggie I can imagine how scared I would be! What I think of the book is that it is a great story but also that everyone should read so there are less Julians in the world!
