

TEMPLATE: FACILITATING PROFESSIONAL LEARNING TO SUPPORT TECHNOLOGY INTEGRATION

Essential Question:

Space for Hosting Faculty Questions and Responses (online or analog):

5 Questions to Consider While Examining Technology for Classroom Instruction:

- Is a diversity of teaching strategies promoted through the use of the technology?
- Are there multiple opportunities for student learning (e.g. deliberative practice, increasing time on task)?
- Are the students (vs. the teacher) in “control” of learning?
- Is peer learning optimized for students?
- Is feedback from peers as well as from teachers optimized for students?

(Questions adapted from *Visible Learning* by Dr. John Hattie, Routledge, 2008)

Follow Up Plan + Protocol: As you visit classrooms, find opportunities to ask the following questions and note responses below.

1. How has the implementation of this technology gone so far for you?
2. What's working for your students? What's not?
3. What have you learned from this process?
